

Dear Driver

Professional Driver National Register

ABA Training Ltd are delighted to announce they are the first training provider to be awarded Accredited Provider status by Go Skills. We are delighted to be awarded this accreditation as it sets us apart from other providers and is recognition of the quality programmes that we deliver and the benefits that our learners have gained from our training.

As a driver who has gained their qualification through being trained by ABA Training, this entitles you to apply to go onto the Professional Drivers National Register and be eligible to apply for new contract work.

GoSkills' Commercial Director, Jackie O'Brien says: "We are delighted to welcome ABA on board. As the first provider to have successfully completed our application process, they set a high standard for service delivery and training performance that will benefit local authorities as well as the passengers they serve."

We are pleased to enclose further information explaining about the register and an application form and hope that you will recommend us to others. Anyone who is thinking of taking their NVQ or other qualification should look for the accreditation symbol or else they may not get onto the register.

We wish you every success and wish to thank you for undertaking your training with ABA Training

The ABA Training Team
